INFORMATIVE DIGEST/POLICY
STATEMENT OVERVIEW

Existing law obligates the Department of Food and Agriculture to protect the agricultural industry by ensuring in every way possible a clean and wholesome supply of meat, milk, and eggs for the benefit of the consumer. (Food and Agricultural Code, Sections 407 and 14901). Existing law provides that the Secretary may adopt regulations as he deems necessary to circumscribe and prevent adulterated feed to protect California's agricultural industry and the consumer (Food and Agricultural Code 14902).

The amendment of Section 2676, revises subsection (c) to indicate that only premises that contain more than 272.4 mg/lb added selenium are required to maintain a daily inventory record.

The amendment of Section 2681 corrects subsection (a) to indicate that commercial feed containing prohibited mammalian tissues is not approved for ruminant animals.

The amendment of Section 2735 revises the following subsections:

Subsection (a) is being revised to subsections (a) and (b) to clarify certification and aflatoxin B1 testing requirements for cottonseed products originating outside of California. The new subsection (a) requires that all cottonseed products originating outside of California, regardless of their state of origin's requirement for aflatoxin B1 testing, be analyzed for aflatoxin B1 and comply with a 20 ppb tolerance. All shipments shall be accompanied by a Certificate of Movement and an analysis certificate reporting aflatoxin B1, and shall guarantee the percent ash, crude fat, protein, fiber, free fatty acids in the oil, moisture,

and foreign material. The new subsection (b) contains existing language for the shipment of cottonseed products that do not meet the aflatoxin B1 tolerance.

Subsection (b) is revised to require that documentation for shipment by railcar, truck, ship, barge, air transport, or other form of transportation of cottonseed products be "affixed to, or" accompany the lot to the purchaser.

Subsection (c) is revised to require that laboratory certifications for cottonseed products originating in Riverside and Imperial Counties shall be "affixed to, or accompany the cottonseed products to the purchaser."

Subsection (d) is being deleted to clarify and remain consistent with the revised appeal process stated in Section 15080, Title 3, Food and Agricultural Code.

Subsection (e) is revised by deleting Room A-472 to reflect a change in the mailing address.

The amendment of Section 2783 revises subsection (j) to establish the additional quality standards of percent free fatty acids in the oil, moisture, and foreign materials in cottonseed, to better define whole cottonseed; subsection (k) is added to define prime whole cottonseed.
